9 Paralakhemundi, Odisha

SUMMARY

A dedicated Electronics and Communication Engineering student with a strong foundation in communication systems, embedded technologies, and field-oriented engineering tasks. Experienced in developing practical hardware and IoT applications using Verilog, MATLAB, and Arduino. Possesses strong analytical skills, adaptability, and a commitment to translating theoretical knowledge into effective engineering solutions, while continuously enhancing technical and professional capabilities.

EDUCATION

Bachelor of Technology

Centurion University of Technology and Management
Paralakhemundi

07/2023 - 04/2027

Intermediate

Government Junior College Kotturu

10/2021 - 04/2023

Matriculation

Government Up Grade High School Chudangapur

04/2021

SKILLS

Programming Languages, Core Skills, Tools and Software

C(Basics)	Java	System Verilog	Cadence	Matlab
Tinkercad	Arduino IDE			

WORKSHOP

Basic Programming Using
Python, Advanced 5G
Communication.

AREA OF INTERESTS

Embedded System, VLSI Design.

EXPERIENCE

INTERNSHIP

AICTE Solutions Summer Internship

07/2025 - 08/2025 Online

- Completed an AICTE Internship in Full Stack Web Development, building dynamic and responsive web applications. Worked with front-end and back-end technologies to develop and integrate user interfaces and databases. Gained hands-on experience in coding, debugging, and deploying web-based projects.

PROJECTS

Design and Comparison of Reversible Gates and Irreversible Sequential Logic circuits

07/2024 - 12/2024 Paralakhemundi

Worked on the design and comparison of reversible logic gates and irreversible sequential circuits. Analyzed differences in power consumption, information loss, and circuit structure. Gained understanding of their applications in modern digital and low-power computing systems.

SIMPLE BANKING SYSTEM

01/2025 - 04/2025 Paralakhemundi

Developed a simple banking system to perform basic operations like account creation, deposit, withdrawal, and balance checking. Gained hands-on experience in programming logic and core banking operations.

RFID Attendance System

07/2024 - 12/2024 Paralakhemundi

Developed an RFID-based attendance system to automatically record student or employee attendance. Used RFID tags and a reader to identify users and store attendance data efficiently. Improved accuracy and reduced manual effort in attendance tracking.

SOFT SKILLS

Communication, Team Work, Problem solving
